

I'm not robot!

The local Starbucks knock-off has excellent coffee and morning snacks, including croissants, plus a convivial sidewalk terrace that's a nice place to sit, drink a double shot of espresso and welcome the day. A godsend if you're staying in the northern part of the city centre and the hotel's coffee is undrinkable.null User manual Sunbeam EM5000 Café Barista Coffee Machine Reviewer Photos & Videosjust got my new machine today and it's brilliant ,can't understand all the negative reviews,but there are more positive than negatives on machine ,you must read the instruction manual first and thoroughly. it makes great cappuccinos, it's well made and looks great on my kitchen bench. I give it 5/5 . Bought mine from appliances online for \$169.00. I recommend this barista EM5000.Purchased in October 2020 at Apple Online store for \$169.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000K (Black)VerifiedThis coffee machine was ok and brought a second one after the first one failed after 24 months no longer pumping water or generating steam.Disappointed that the second machine lasted less than 12 months before it stopped frothing the milk and unfortunately was a few weeks out of warranty by the time I had bothered looking for the receipt and doing anything about it.For the price, having a detachable milk jug and automatic frothing option (even though its not as great as what can be produced with manual frothing on other machines) was pretty good and led to buying the machine for a second time. Have to weigh up though if throwing away \$200 every 12 months (or less) is worth it in the long run though.Purchased in March 2021 at The Good Guys for \$189.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000WR (White Rose Gold)VerifiedEspresso shot is reasonable for a double walled filter. but watery compared to the EM5300.Even on the lowest froth setting it produced way too much froth (approx 50% of the cup) and required to be microwaved for at least 20 seconds to get to a reasonable temperature.Customer service initially was really bad but fast responding. They followed the script which didn't answer my questions. CS offered a few options, chose refund as they couldn't tell me if I was going to have the same issues with a replacement.Purchased in June 2022 at Big W Online Store.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000K (Black)This machine was great for a month but despite cleaning it after each use the milk just dribbles out at best.Many questions have been asked on the sunbeam page for the same issue and they appear to be ignoring everyone and not providing any advice. Without any support from the manufacturer it is best to steer clear of this product.Purchased in December 2021 at Target Australia for \$250.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Know better, choose better.Compare allI've been using this machine for about 7 years.The quality of the coffee produced is fantastic, I'm at the point now I much prefer to make my own coffee now at home rather than purchase from the local café daily.The quality of the coffee is consistent, but that is generally based on the quality of your beans.The temperature of the coffee could be a little warmer, however as I enjoy lattes and caps it doesn't really bother me.A great machine for a beginner/entry level into the espresso market.If I was to buy this machine again I would except I'd purchase one with a built in grinder.Purchased in June 2015 for \$600.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000WR (White Rose Gold)Coffee machine was given as a Mother's Day gift 2021. Up until a month ago it worked fine (all cleaning done as said by the manual) now only the cappuccino button flashes between the two sizes and continually try's frothing milk even after the chamber is empty. I have tried the 'press and hold' for auto coffee dispensing but it will no longer come out.Incentivised Review NoProduct is used DailySimilar opinion? Write a review on ProductReview.com.au! PreviousThe Top-Rated Coffee Machines of 2022The ProductReview.com.au Awards for the top coffee machines (semi-automatic & manual, capsule / coffee pod, and fully automatic) of 2022 are here! View in-depth ratings for different aspects of all the Award Winners, for everything from how easy they are to clean to their milk frothing capabilities. Wendy Z.12 Jan 2022NextCafe Barista EM5000K (Black)I had to replace my machine after less than a year as there so much steam coming and it was making chugging noises. Now the replacement seems to have stopped frothing milk. It literally just pours out . I clean everything . Use milk straight out of the Fridge and have plenty of water in it. So frustratingPurchased in December 2020 at JB Hi-Fi Online Store for \$199.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000WR (White Rose Gold)13 months of trouble-free use and suddenly stopped working. Very little milk making it up the tube and coffee comes out simultaneously. It was a good little machine and made a reasonable cup of coffee. Mostly just used once a day to make 2 cups of coffee. Had no response from Sunbeam after making this complaint privately. Frustrating and at the end of my tether.Purchased in December 2020.Ease of UseCleaning & Maintenance See all answersSimilar opinion? Write a review on ProductReview.com.au! Know better, choose better.Compare allCafe Barista EM5000K (Black)I've owned my coffee machine 1 year & it will no longer froth milk it will not come out of the nozzle almost as if a lever has turned it off. I have always taken very good care of it and cleaned it often. It's my favourite coffee machine ever but I'm so upset I can no longer use it due to this.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000K (Black)Come in sucker - bought 2 of these machines - 1st one was replaced with another one - lasted just over 12mths and was told because it was a replacement not covered with warranty - milk problem with both machines - bought another 1 in Aug 2021 and got refunded today as it also had a milk problem - 3 machines all told same problemsPurchased in August 2021 for \$200.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Know better, choose better.Compare allCafe Barista EM5000K (Black)We love our sunbeam cafe barista BUT it has suddenly had trouble frothing milk, we have tried everything and clean it regularly so are sure there are no blockages. Not sure what else to do! Very disappointed.Purchased in January 2021 for \$229.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000K (Black)Bought this machine in late October 21. Stopped frothing early in December. Was in touch with retailer and sunbeam take it to a repairer as still on 12 month warranty. But we live 250kms from repairer cost to send it approx \$80 each way just can't get it fixed.Purchased in October 2021 at Highburys for \$257.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Cafe Barista EM5000K (Black)We love how easy it is to use this machine. Cappacino, espresso or latte at the push of a button. It is great if you want to push button and come back to a cappuccino made for you.But after purchasing two machines in just over three years the quality of the machine has to come into question. Just out of warranty both times the pump died. Once gone the machine is a throw away. The frothing function just stopped. We followed all the guidelines and cleaned machine every time we used it. From other reviews it is obvious that the pump on this machine is not up to standard.Won't be going back for a third machine. Regret buying a second hoping for a better outcome. Twice bitten.....Purchased at Harvey Norman for \$220.Build QualityValue for MoneySee all answersSimilar opinion? Write a review on ProductReview.com.au! Sunbeam EM5000K Café Barista Coffee Machine - Use Manual - Use Guide PDF. Documents: Go to download! User Manual Owner's manual - (English) Other Documents C100POLO - Polo Cool - Specifications Sheet - (English) User manual Coffee Maker for Sunbeam EM5000KTable of contentsSunbeam's Safety PrecautionsSelecting the right coffeeFeatures of your Cafe BaristaControl PanelBefore using your appliance for the first timeOperating InstructionsCare and CleaningTroubleshooting GuideThe GrindThis is a vital step in the espresso making process if you are grinding your own coffee and takes practice. The coffee must be of a fine grind.The correct grind should look like salt.If the grind is too fine, the water will not flow through the coffee even under pressure. These grinds look like powder and feel like flour when rubbed between fingers.If the grind is too coarse, the water flows through the coffee too fast, preventing a full- flavoured extraction.Clean the applianceMake sure unit is unplugged and the On/Off switch is in the Off position "O".Remove stickers and labels from the unit.NOTE: REMOVE THE RED PLUG FOUND AT THE BASE OF THE WATER RESERVOIR.Remove and wash the water reservoir, milk reservoir, porta-filter, 2 filters and measuring scoop in a mixture of mild detergent and water. Rinse each thoroughly and place back onto appliance.NOTE: Porta-filter and water reservoir are NOT dishwasher safe.Prime the unit (must be completed prior to first use)Plug unit in and turn unit ON ("I") using the On/Off switch.Fill water reservoir up to the "MAX" level with water and place back on unit.Fill milk reservoir up to the "MAX" level with water and place back on unit. Be sure to firmly push the milk reservoir into place until Cappuccino and Latte buttons illuminate.Place porta-filter in the unit ensuring it is properly locked. For more instructions, refer to the "Placing the Porta-Filter" section on page 10 of this manual.Place a large cup under porta-filter.Aim the tip of the frothed milk dispensing tube inside the cup.Once all 3 lights on the control panel stop pulsing and illuminated, press the Latte button twice brew double latte, the unit stops automatically.Once step 7 is complete, the 3 control panel lights will remain illuminated indicating that the unit is ready for use.Filling the Milk ReservoirIf you plan to prepare cappuccino or latte, remove the milk reservoir from the unit.Lift the lid and pour the quantity of cold milk you estimate you will need. Do not fill past the "MAX" line. When done, place the milk reservoir back in the unit ensuring it fits tightly and the Cappuccino and Latte buttons are illuminated or pulsing.NOTE: Be sure to firmly push Milk Reservoir into unit! Cappuccino and Latte buttons light illuminate/pulse.NOTE: You can use any type of milk, i.e. whole milk, low fat milk, organic or soy milk.Filling with Coffee Fill the filter with fresh, fine ground espresso coffee (do not overfill).Tamp and compress the ground coffee firmly and evenly. Coffee should be 3mm below top of filter after tamping.Clean any excess coffee from the rim to ensure proper fit under brew head and avoid leaks.Placing the Cup(s) Pull out the height adjustment tray if you are using a small "demitasse" cup to brew espresso.Keep the height adjustment tray inside its compartment if you are using a larger cup to brew cappuccino.Keep the height adjustment tray inside its compartment if you are brewing into a larger cup.Newest Added: JM4000FP5910 EP5000 BL4841 BL5121 BL5651Also, These documents are for others Sunbeam models: EM5000Tags: Sunbeam Coffee Makers User Manuals, Sunbeam Coffee Makers Use Manual, Sunbeam Microwave, Sunbeam Cafe Mixer, Sunbeam Manual Food Processor, Sunbeam Multi Pressure Cooker, Sunbeam Em5000k
